HEALTH EQUITY

**Luton 2040**  
A place to thrive

## Luton as a health equity town

# This is Luton

Infographic summary | May 2022

## POPULATION

**SUPER DIVERSE COMMUNITY**

**55%**

OF POPULATION ARE FROM ETHNIC MINORITY COMMUNITIES

**150**

LANGUAGES AND DIALECTS SPOKEN

**52** PEOPLE PER HECTARE

(GREATER THAN SOME LONDON BOROUGHS)

**225,300**

TOTAL POPULATION

**YOUNGER** THAN AVERAGE POPULATION

## LIFE EXPECTANCY

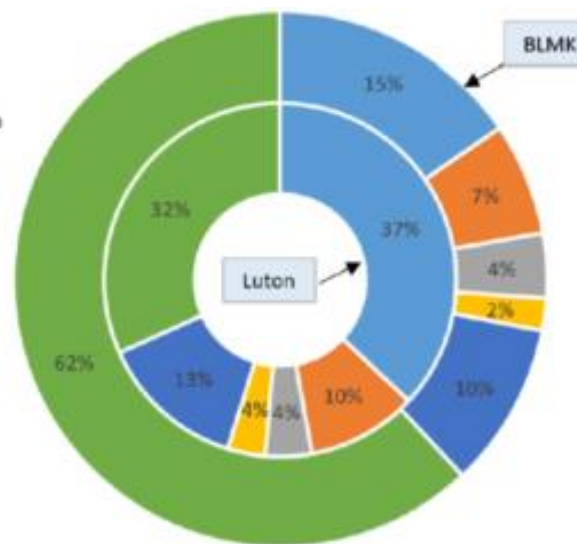

**♂ 78.1** FOR MALES (national average 79.6)

**♀ 82.4** FOR FEMALES (national average 83.3)

# Setting the scene: Luton – a snapshot

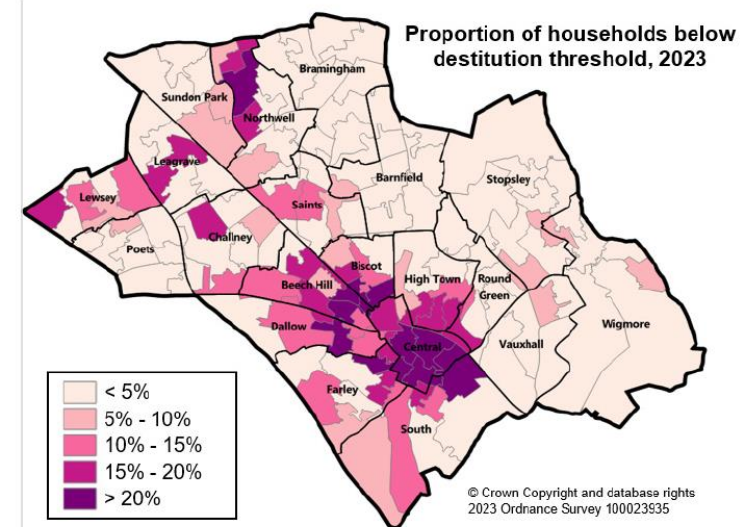

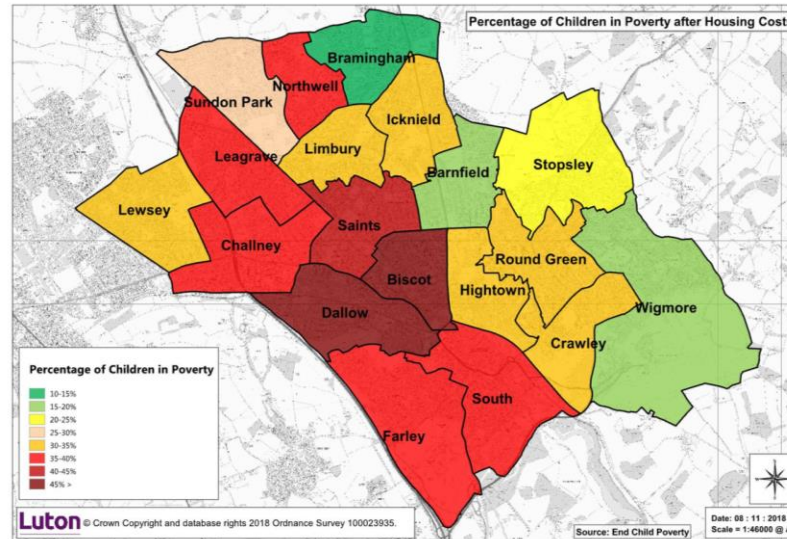

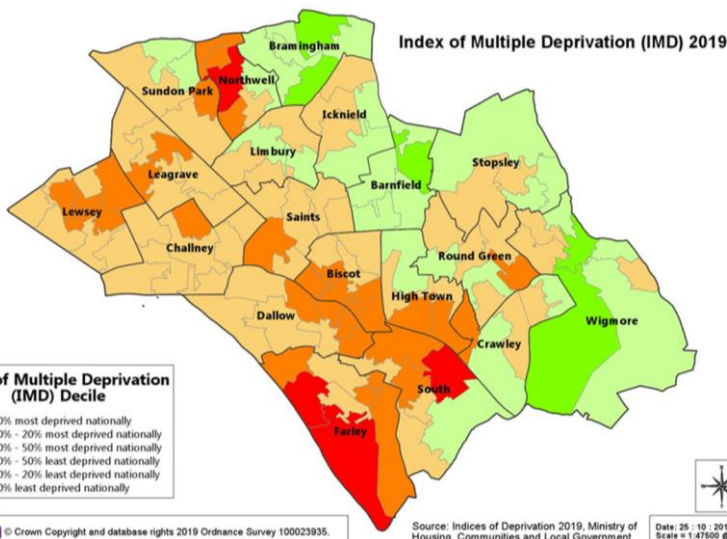

## Luton 2020 - 2040 A place to thrive

- Asian
- Black
- Mixed
- Other Ethnic Group
- White: Other
- White: British

Luton is an ethnically diverse town, with significant long-standing Indian, Pakistani, Bangladeshi, African-Caribbean and Irish communities, as well as complicated pattern of migration and population turnover.

In 2019, there were three wards in Luton with over 40% of children living in poverty – Saints, Biscot, and Dallow

# Why a Marmot Town?

## Why now?

**2040 vision:** a healthy, fair, and sustainable town where everyone can thrive and no one has to live in poverty

Historical stark health inequalities and areas of deprivation across Luton

Luton's experiences during the covid pandemic – high rates, inequalities

→ Consensus understanding of injustice, challenges of issues and sense of urgency

## What gain?

Assess and develop actions across inequalities in the social determinants of health

Focused action to increase impact on health inequalities across 4 areas:

1. Children & Young People – Raising aspirations
2. Housing
3. Business, Employment and Skills
4. Net Zero

Develop the Luton Health Equity System

Link Luton with other places in the UK which are prioritizing health equity

Supporting a strong and empowered community, built on **fairness**, local pride and a powerful voice for all our residents.

**Luton 2040**  
A place to thrive

Building an inclusive **economy** that delivers investment to support the growth of businesses, jobs and incomes.

**Luton 2040 vision:**  
A place where everyone can thrive and no one lives in poverty

Improving population wellbeing and tackling **health** inequalities to enable everyone to have a good quality of life and reach their full potential.

Becoming a **child friendly** town, where our children grow up happy, healthy and secure, with a voice that matters and the opportunities they need to thrive.

Tackling the climate emergency and becoming a **net zero** town with sustainable growth and a healthier environment.

**REDUCING HEALTH  
INEQUALITIES  
IN LUTON:  
A MARMOT TOWN**

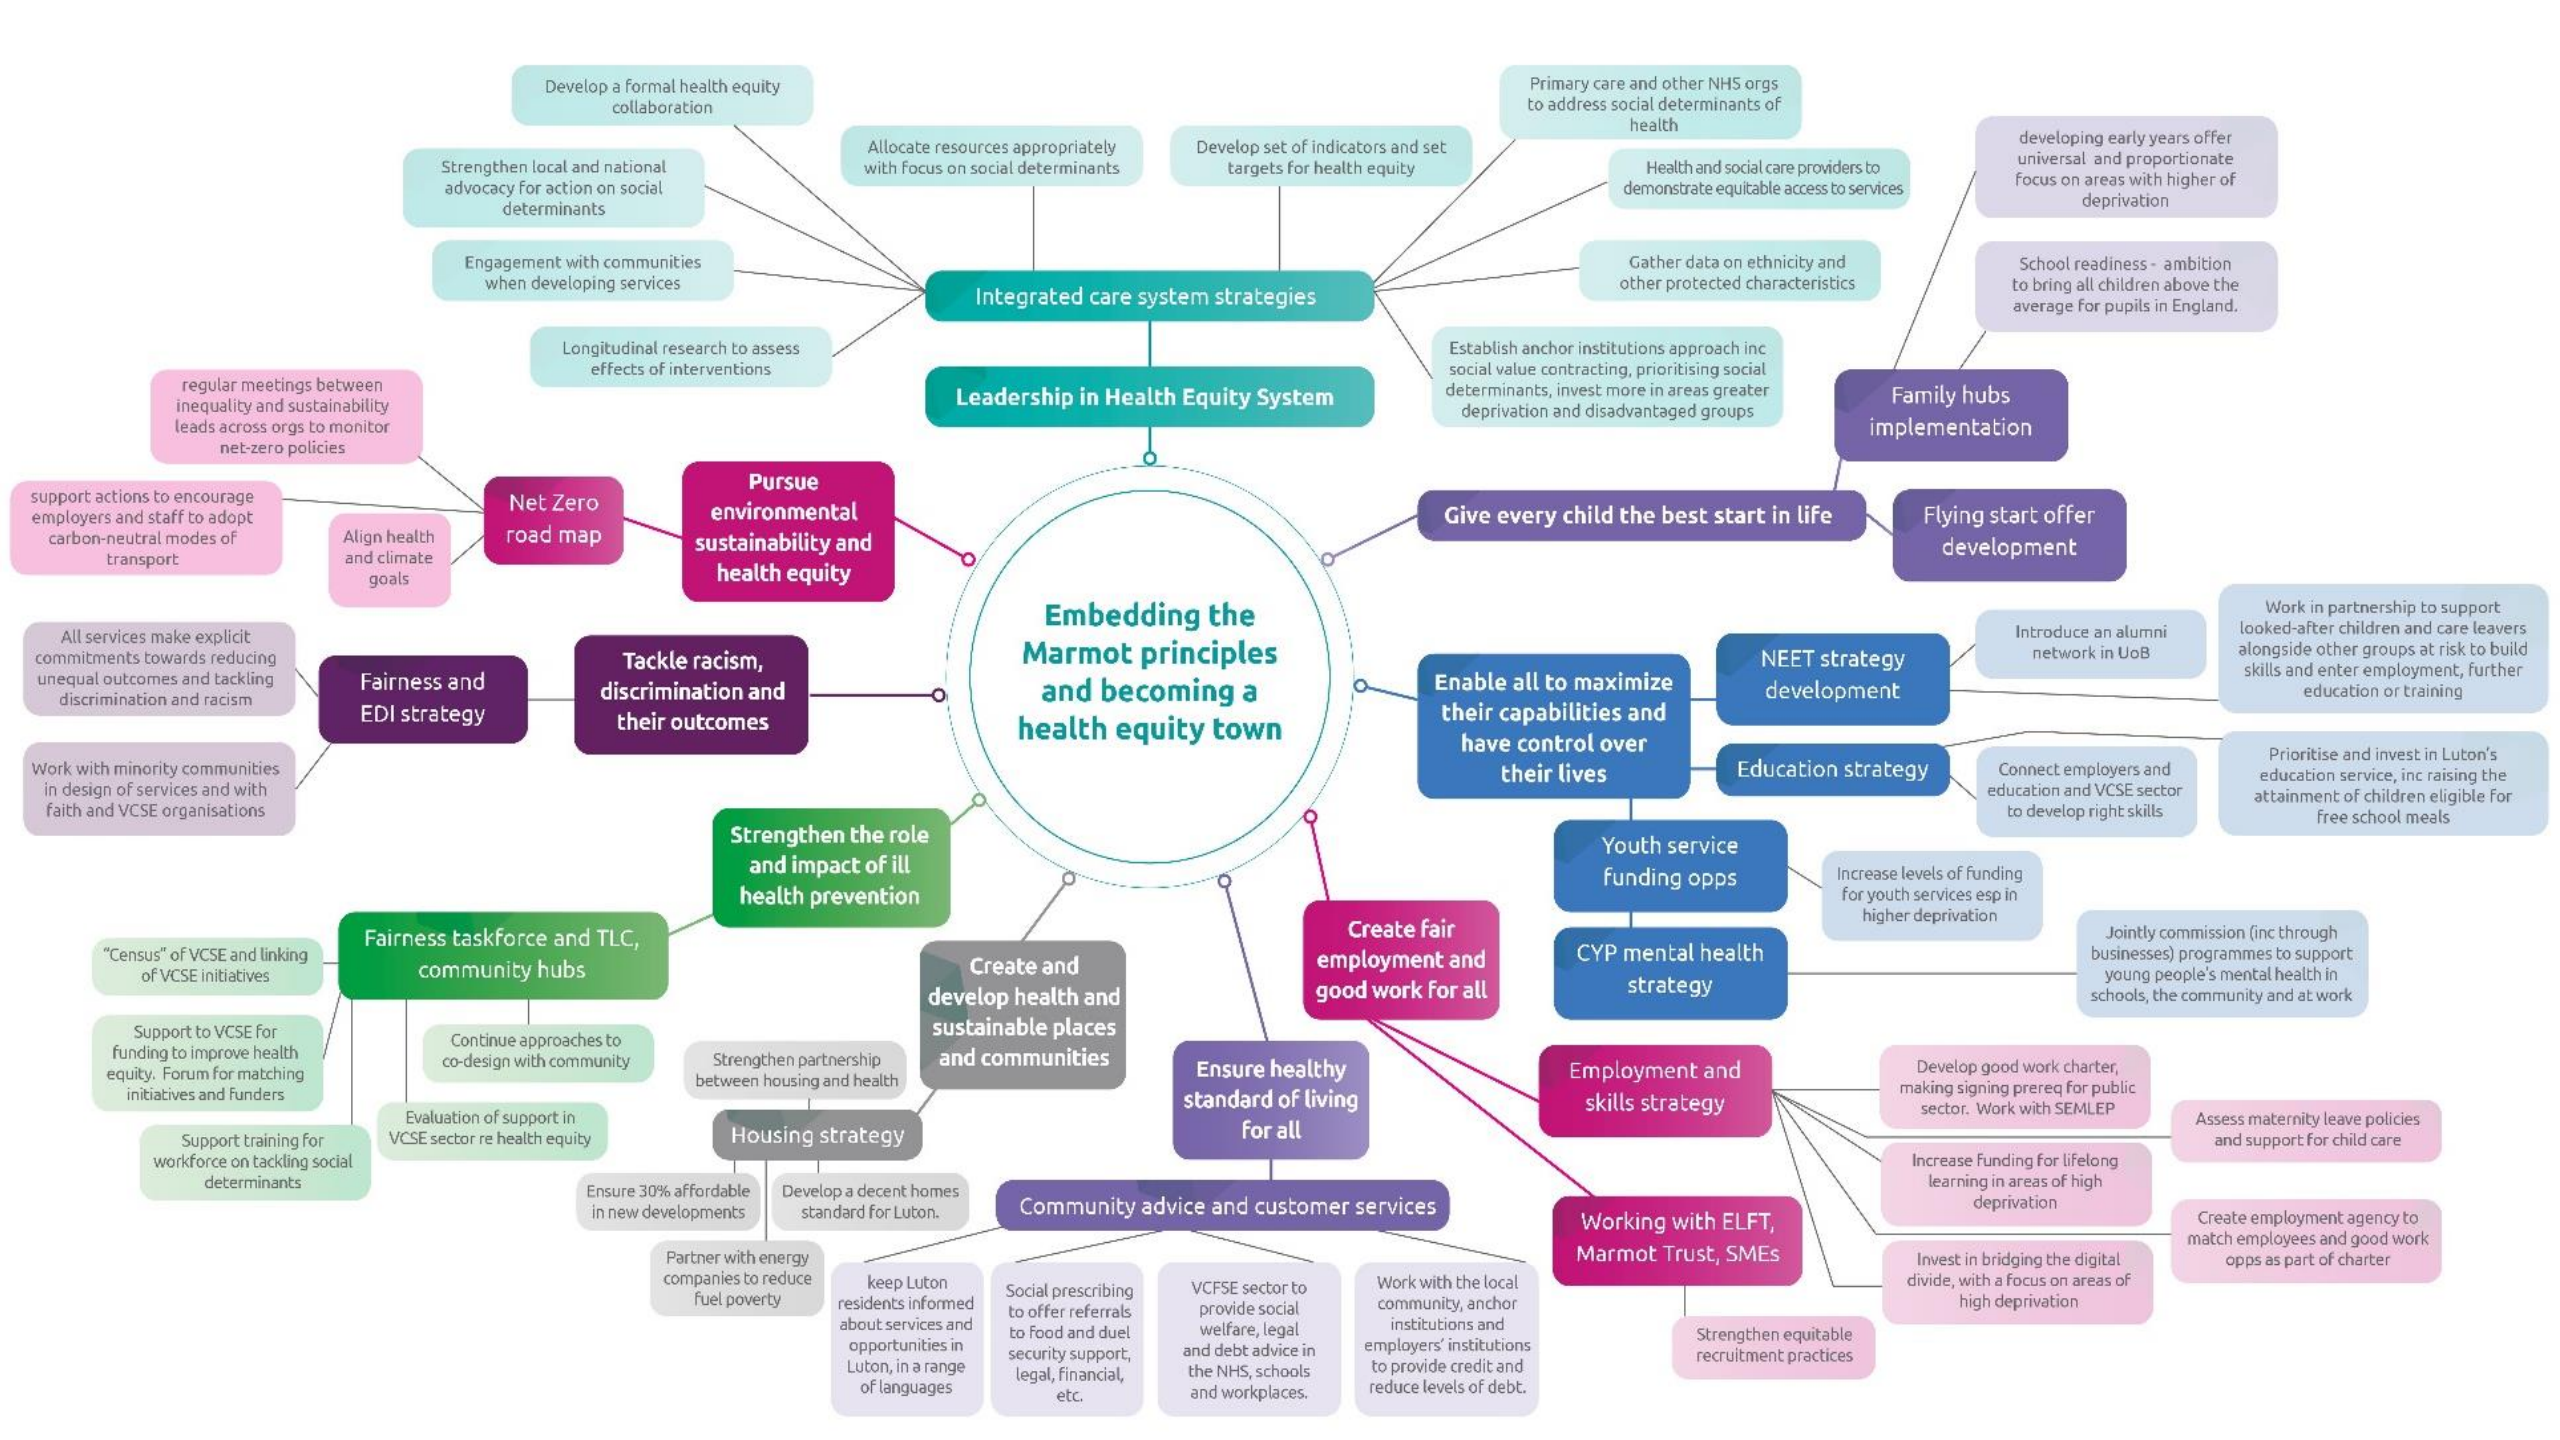

# Timeline

Throughout 2024	APHR focus Impact measures Workstream activity – gap analysis and logic models Toolkit launch Newsletter, microsite Frameworks – building blocks of health one year on event

## Health Equity Town Evaluation and monitoring framework

We have focused on developing an evaluation of the work to ensure we know how to continue to maximise impact and get the measures right to assess progress on an annual basis.

Over the last year, an evaluation of the health equity town work has been completed. The evaluation had three main aims:

**1.**

To understand the impact of the Luton Marmot report on system-wide efforts to tackle health inequalities through the wider determinants of health.

**2.**

To develop a set of measures to illustrate early impacts of the Luton Marmot report and set out an approach for future outcome measurement structured around the eight Marmot principles set out within the report.

**3.**

To activate the health equity system through the process of evaluation, through stakeholder engagement and re-enforcement of priorities and direction of travel

Some findings from the evaluation:

Opportunities	Challenges
<p>Improved evidence base and articulation of issues – have been used to influence proposals, develop work programmes (core20plus5)</p> <p>Clear narrative to support priorities</p> <p>Clear focused recommendations to work on</p> <p>Increased collaboration and focus on wider determinants of health and inequalities</p> <ul style="list-style-type: none"><li>- changing conversations</li><li>- galvanising actions</li><li>- influencing strategies underway</li></ul> <p>Influencing wider decision making to consider health inequalities</p>	<p>Long term-ism</p> <p>View of leading versus influencing</p> <p>Competing system priorities</p> <p>Some areas have limited levers of influence</p> <p>Getting the governance right – to be seen as part of system not another “project”</p> <p>Capacity to deliver at desired pace</p>

Some recommendations from evaluation:

- Ensure system-wide clarity and strengthening of governance and accountability.
- Ensure all stakeholders understand the role they can and are playing in tackling health inequalities.
- Embed Marmot and health inequalities within workforce development across the system.
- Develop a coherent workplan around the seventh Marmot principle; tackling discrimination and structural racism and its outcomes.
- Use of logic models may be a useful method to build on for future workstreams associated with Luton's Marmot Town ambitions.
- Ensure that we learn from best practice amongst Luton partners and from national and international evidence base, whilst also sharing our own knowledge and learning.

## Four Priority Workstreams

Housing

Net Zero

Children  
and Young  
People

Business,  
Skills and  
Employment

**Hypothesis:** Increasing the availability of good quality work and the employability of the local population to take on these jobs will improve health outcomes.

**Assumptions:** Target groups will take up employments skills training  
 Work places will implement recommendations  
 There will be economic growth and therefore more high quality jobs available to local people

**Inputs**

- Marmot report recommendations
- Staff
- Time
- Funding
- Business and employment skills strategy

**Activities**

- ELFT/Total wellbeing Luton - workplace wellbeing offer
- Mental health First Aid training
- Connect 2 Luton
- Passport to employment
- 'Destination digital'
- Apprenticeship brokerage scheme
- UoB's 'Passport to Entrepreneurship' programme under Pathways to Recovery
- Careers hub.
- Schools' careers and employment skills offer
- SEMLEP employment skills
- Luton Adult Learning family learning programmes
- ELFT inclusive recruitment QI project
- SEMLEP business support
- Good business charter
- Luton 2040 pledges for businesses

**Outputs**

- Number of organisations that take up MHFA/total wellbeing training
- Number of people accessing employment skills training
- Number of people registering with/seeking employment via Connect 2 Luton
- Number of people enrolling on Passport to Entrepreneurship programme
- Number of apprenticeships arranged via brokerage scheme
- Number of businesses accessing SEMLEP business support

**Outcomes**

- Luton employment rate
- % of Luton based jobs paying the Real Living Wage
- % of residents in higher-level occupations (Level4, Level2 and No Formal Qualifications)
- Proportion of highly skilled workforce (% with NVQ level 4,3,2,1 and no formal qualifications)
- Minimum Income Standard (Luton adapted model)

**Context:** The Marmot report for Luton was published in September 2022. Implementation of the report recommendations is being led by LBC but in close collaboration with system partners. There are 4 priority work streams for the first stage of implementation: business and employment skills; housing and warm spaces; children and young people, net zero. Implementation of the recommendations aligns with the 2040 vision and several strategies within the council.

**Barriers:** No formal governance structure for implementation or evaluation. Maybe unclear how the Marmot report fits with the 2040 vision and other existing strategies may be seen as additional work in an already pressured system. Will be challenging to determine what change is due to Marmot. Outcomes and impacts may not be seen for a long period of time and momentum to continue with implementation may be lost.

# Impact to date - workstreams

Housing	Business and employment	CYP	Net Zero

## Health equity system achievements

### Health Equity Town

- Evaluation report -
- Health & Built Environment workshop
- Collaborative Fund Evaluation
- Building blocks of Health training and champions
- Development of microsite

### Talk Listen Change – refreshed action plan

- Formation of black and muslim health steering group
- TLC Anchor Institutions Project
- Health Fair for communities including GRT's
- Physical Activity for communities
- Town-wide mental health campaign
- Culturally Adapted CBT
- TLC webpage

### Core20plus5

- Food First Luton - >8000 Food map distribution
- 7 week Pulmonary rehab transport and course potential savings of up to £2000 bed days per patient
- Employment of a community programme lead & local area coordinators to support neighbourhood working.
- Luton citizens advice outreach workers in PCN's to support income maximisation in GP surgeries
- Housing and health projects improving PRS
