NAVIGATOR TOOL

The climate emergency

Crossing tipping points

Greece wildfires: Hundreds more evacuated as uncontrolled fires rage

Enormous 'Megafire' In Australia Engulfs 1.5 Million Acres

Great Barrier Reef suffers 89% collapse in new coral after bleaching events

Arctic methane deposits 'starting to release', scientists say

Amazon deforestation surges to 12-year high under Bolsonaro

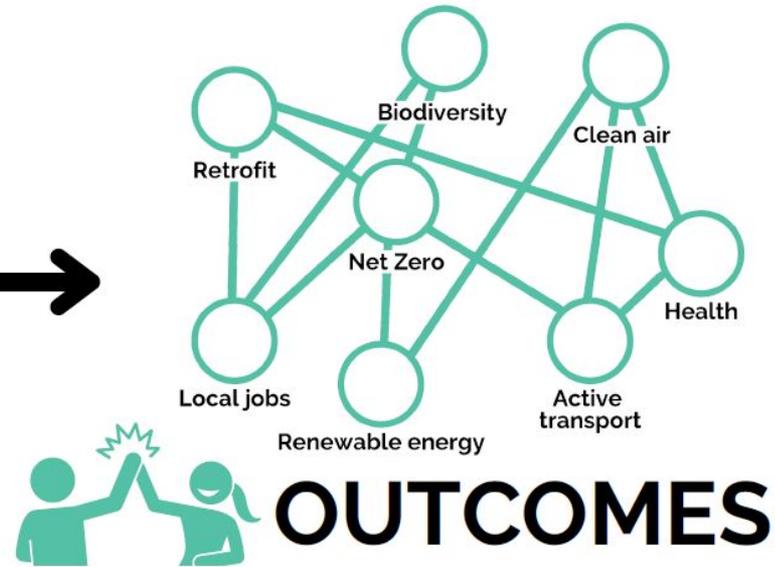

“Climate changes are happening 70 years earlier than predicted.”

Sir David King, former UK Chief Scientific Officer

Key threats:

1. Extreme weather events
2. Food security
3. Migration

‘The visualisation process we did on OnePlanet.com made a very complex and often overwhelming process simple and accessible.’

Councillor Tom Hayes
Oxford City Council

Our Goal

What:

- To create a cohort of net zero local government leaders
- To drive integrated climate action across council departments

How:

- Use Catapult's Net Zero Navigator
- Drive collaboration through OnePlanet co-benefits platform
- 6-month supported process building a community of practice

OnePlanet.

CATAPULT
Connected Places

Space Syntax

Net Zero
NAVIGATOR TOOL

OnePlanet.

- Based on 30 years of sustainability experience - cities, companies and communities
- New platform to create visually stimulating and instantly engaging plans that are shared, sustainable and transparent.
- OnePlanet platform is now being used around the world.

Thinking behind the platform: Unlock the co-benefits

The way forward

Understand interconnections between departments to **build the business case**, stimulate collaboration and drive climate action.

Interconnections can be best understood through **co-benefits**.

Feedback from Local Governments

- Lack of collaboration across departments to deliver net zero.
- Hard to get climate actions prioritised against competing objectives.
- Climate Officers lack capacity and feel overwhelmed - need a solution that is efficient and effective.
- Need to 'socialise the strategy' - create wider engagement internally and externally

The Net Zero Navigator Tool

The NZN tool, built by Connected Places Catapult with key partners, and in consultation with Local Authorities to:

1. **Build confidence and capacity:** Demystify net-zero and develop net zero strategies with prioritised and referenced interventions
2. **Map the co-benefits of climate action:** Build the business case and drive cross-departmental collaboration
3. **Streamline implementation:** Connect up plans, share indicators, collate actions, align reporting

Export to OnePlanet

Mindmap:

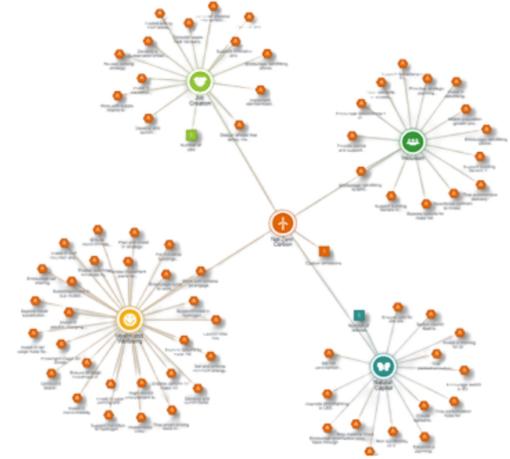

- Visualise co-benefits and manage actions

Table:

- Add indicators
- Manage actions

Document:

- Create reports

Name	Details	Shared Outcome	Principle	Source
Employee happiness		✓	Health and happiness	
Our clients trust us		✓	Culture and community	
Healthy residents, mentally and physically		✓	Health and happiness	
Greater environmental awareness		✓	Land and nature	

Manage on OnePlanet - save time and money, increase impact

Ecosystem:

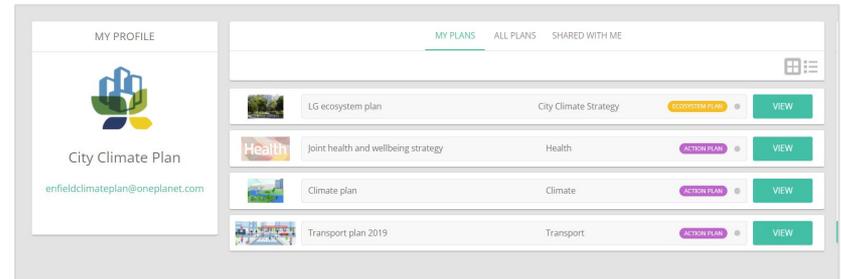

- Connect up Council strategies through Shared Outcomes and Shared Indicators
- Leverage co-benefits

Existing strategies

- Align and avoid duplication
- Track metrics and performance

Climate strategy:

- Focus on key actions

Net Zero Leadership Cohort

1. Create, update, sense-check and **enhance your climate strategy**
2. Highlight co-benefits to **build business case** and drive internal collaboration
3. **Integrate climate strategy** with existing strategies
4. **Thematic workshops** run with the CPC, Space Syntax and Useful Projects
5. **Train** wider team to use the platform

Net Zero Leadership Cohort

- £ 9,750
- 6-month process - starting in March and April
- Each cohort formed of 6 local authorities
- Format:
 - Six 2-hour workshops
 - Six 1-hour training sessions
 - Weekly drop-in sessions for questions and support
 - Individual support and coaching sessions
- Access to full ecosystem account for 1 year; create 10 connected action plans, with 10 editors

Thematic workshops and further support

Key topics include:

- Retrofit and energy – Useful Projects
- [Procurement](#) – Connected Places Catapult
- Using spatial data – transport and health – Space Syntax and ESRI
- Engaging wider stakeholders - Commonplace

Key benefits:

- Support tailored to your point on the net zero journey
- Advice from leading sector experts

‘OnePlanet has allowed us to make a complex sustainability strategy accessible to wider project teams. The dynamic interface allows all the projects to collaborate and contribute to our ambitious targets.’

Rafe Bertram, London Borough of Enfield - Sustainability Facilitator

Contact us to get started

If you're a local authority that wants to efficiently create a joined up, integrated and deliverable climate strategy that speaks to senior management, stakeholders and your colleagues, then contact us:
